FORMBUDDY / COMPLETE PLAIN-LANGUAGE ARCHITECTURE

How FormBuddy turns a form into a conversation

Everything the product does today, where information goes, and what the person controls.

1 WAYS A PERSON CAN BEGIN

START
SPEAK
Use the microphone

START
TYPE
Use the answer box

START
GUIDED FORM
Texas DL-14A

START
UPLOAD A FORM
Any fillable PDF

START
EXTENSION
Open FormBuddy quickly

2 THE CONVERSATION THAT REPLACES THE FORM

1
Listen
Turns speech into a live transcript.

2
Understand
Keeps only answers the person actually gave.

3
Guide
Asks for missing details in a natural order.

4
Correct
Accepts changes without starting over.

5
Adapt
Uses shorter questions, slower pace, or language preferences.

3 WHAT HAPPENS BEHIND THE CONVERSATION

FORM HANDLING

The document is prepared safely

Read
Find every fillable field.

Organize
Turn fields into clear questions.

Protect
Skip passwords, SSNs, and payment details.

Check & fill
Format answers and place them into the form.

MEMORY & CONTINUITY

Useful context, with clear boundaries

ON THIS DEVICE
Personal memory
Name, contact details, and preferences stay in the browser.

SAVED SESSION
Conversation context
Questions and answers can continue naturally.

4 WHAT THE PERSON SEES AND RECEIVES

REVIEW
LIVE TRANSCRIPT
See what FormBuddy heard.

REVIEW
PROGRESS
See what is complete or missing.

REVIEW
FORM PREVIEW
Review answers inside the document.

REVIEW
COMPLETED PDF
Correct, download, and keep the draft.

THE HUMAN DECISION STAYS WITH THE PERSON

Review the draft → make corrections → submit through the official channel

FormBuddy does not submit forms, decide eligibility, or provide legal advice.

5 FUTURE EXPANSION — NOT PART OF TODAY'S PRODUCT

Form history

Due dates & reminders

Required forms first
